

For user "First Name44 Last Name 44",

1. Is there a job function change since the user has joined the company?
2. What is the difference between the role assigned in the Intacct system and the user's role function? Which role has the more privileged access within Intacct?
3. Do we have the individual IT ticket for the sampled user? Is there a way for us to obtain the full individual IT ticket with notes included?

For user "First Name77 Last Name 77",

1. Was there another approval obtained prior to system provisioning?
2. If so, how many days after the system provisioning date is approval obtained?
