Subject: Critical Incident – Spring4Shell Exploitation on NBN Connection

Hello NBN Team,

At 2022-03-20T03:16:34Z, our firewall detected activity consistent with the Spring4Shell (CVE-2022-22965) vulnerability. The affected infrastructure is the NBN Connection (nbn.external.network), which is tagged P1-Critical.

Please begin incident response immediately. Functionality is impaired, and this service needs to remain online and uninterrupted.

For any questions or updates, reach out to Security Operations.

Kind regards,
Telstra Security Operations
